Dear Dr. Pollard:

Last Thursday, on behalf of the OUAA Board, our treasury sent your VP for Finance a check for \$60,000 towards the OU Student Center Treehouse project. This check brings the Alumni Association donation to the Treehouse project to a total of \$100,000 to date. These funds represent our donors' targeted giving for the Student Center.

In addition, over a year ago, the OUAA Board allocated \$40,000 of capital funding to the Student Center Treehouse project. The final \$40,000 donation will be remitted after we receive written confirmation of the timeline for beginning construction and completion of the project.

Please understand that we are accountable to our donors to ensure that their donations are applied as requested. We are sending these funds to you with the stipulation that in the event of unforeseen circumstances that prevent the completion of this project, the total sum will be returned to OUAA for return distribution or reallocation according to donor inclinations.

We offer our continued support as you move forward with plans for successful completion of this project.

In His Service,

C. Powell-Hicks

Cynthia Powell-Hicks, M.A., Ph.D,
President
